

**International Symposium on Synthetic Membrane Science and  
Technology, Dalian, China, April 13-18, 1986**

**CONTENTS**

Introduction	
by Lou Nanquan (Beijing, China) .....	1
Introduction	
by W. Pusch (Frankfurt am Main, F.R.G.) .....	3
<i>Section A. Fundamentals of membrane science and technology</i>	
Efficiency of synthetic membranes in comparison with biological membranes	
by W. Pusch (Frankfurt am Main, F.R.G.) .....	5
Contributions to the desalination membrane mechanism by studies of interactions in aqueous solutions and in polymer hydration	
by W.A.P. Luck (Marburg, F.R.G.) .....	19
An experimental approach to the preparation of hollow fiber membranes	
by R. McKinney, Jr. (Research Triangle Park, NC, U.S.A.) .....	37
Prediction of membrane properties using phase diagrams in the polymer-solvent-precipitant system	
by Hu Jiajun (Beijing, China) .....	49
Dyestuff diffusion from gas phase into PET film	
by N. Choji and M. Karasawa (Yonezawa, Japan) .....	55
The mechanism of membrane phase separation	
by Wu Qiulin, Cong Lanbo and Liu Qingshang (Beijing, China) .....	69
The investigation of solution thermodynamics for the polysulfone-DMAC-water system	
by Li Shuguang, Jiang Chengzhang and Zhang Yuanqi (Dalian, China) .....	79
Pore size control in the preparation of PAN membranes	
by Gao Congjie, Lu Xueren and Sun Xiuzhen (Hangzhou, China) .....	89
A graft-modified cellulose acetate hollow fiber membrane	
by Yang Puchen, Yan Wen and Zhang Huixin (Tianjin, China) .....	99
Radiation induced grafting of acrylic acid onto polycarbonate membranes	
by Zhennan Wu, Ge Xuewu, Lu Juan, Wang Fang, Shi Wenfang, Xu Haiyan and Luo Jian (Hefei, China) .....	107
<i>Section B. Ultrafiltration and microfiltration</i>	
A review of fouling and fouling control in ultrafiltration	
by A.G. Fane and C.J.D. Fell (Kensington, N.S.W., Australia) .....	117
Selection of membranes for treatment of bleaching effluents	
by P. Zadorecki (Tumba, Sweden) .....	137
The application of membranes in environmental protection	
by Liu Ting-hui (Beijing, China) .....	149
A new type of porous membrane filter for the regulation of dust and the removal of particles from aqueous solutions	
by Wang Zhenkun, Zhang Huanxin and Chan Ruiying (Shanghai, China) .....	165
Optimization in the preparation of polysulfone ultrafiltration membranes	
by Guo Yunlan, Shi Mingren and Hu Jiajun (Beijing, China) .....	173

*Section C. Hyperfiltration (reverse osmosis)*

Comparison of two thin-film composite membranes: low pressure FT-30 to very low pressure NF40HF by S.D.N. Freeman and T.F. Stocker (Minneapolis, MN, U.S.A.) .....	183
Concentrating xylose solution by reverse osmosis with cellulose acetate dry membrane by Liu Yurong, Cai Bangxiao, Chen Yiming and Lang Kangmin (Hangzhou, China) .....	193
Characteristics of PFI composite reverse osmosis membrane by Lu Xueren and Gao Congjie (Hangzhou, China) .....	203
Mass transfer and the fluidized bed intensification of reverse osmosis by Wang Xuesong (Dalian Laoning, China) .....	211
Polysulfonamide as a membrane material by Wang Shu-sen, Ling Ai-lian, Wu Ling-ling, Gao Yi-yuan, Liu Shu-xiu, Wang Zhi-zhou, Sheng Li-ming and Kang De-kuan (Beijing, China) .....	221
Long-term tests on a model SRO-80-1000 spiral-wound RO prototype by Ren Deqian, Hu Bingchen, Xu Rongan (Hangzhou, China), Pan Lili and Yin Peiyu (Huzhou, China) .....	233
The development of polysulfonamide membrane and its application in treating chromium plating wastewater by Liu Gouxin and Wu Jiangjing (Beijing, China) .....	239

*Section D. Dialysis/electrodialysis and ion exchange*

The treatment of cupric chloride solution after the etching process by ion exchange membrane electrodialysis by Xue Deming, Song Dezheng and Liu Xiaoying (Hangzhou, China) .....	251
Preparation of NF ion-exchange membranes via radiation-induced grafting and their application by Xu Zhi-li (Shanghai, China) .....	259
Preparation of charged micro-mosaic membrane via radiation-induced grafting of styrene and methyl methacrylate onto Teflon FEP films by Gen Yun-Peng (Shanghai, China) .....	265
Preparation of charge-mosaic membranes by radiation-induced graft copolymerization of PE films with styrene and 4-vinylpyridine. II. Effects of pre-irradiation dosage, atmosphere, storage time and storage temperature of grafting of 4-vinylpyridine onto PE films by Dong Chuanyin (Shanghai, China) .....	275

*Section E. Gas separation and pervaporation*

A brief discussion of numerical simulation for pervaporation in capillary permeator by Zhu Chang-Lue and Shao Xin-Ming (Hangzhou, China) .....	283
Water-vapor permeability of polyvinyl alcohol films by Yu Xianda, Wang Anlai and Cao Suqin (Lanzhou, China) .....	293
Separation of ethanol-water mixtures by pervaporation- membrane separation process by Zhu Changluo, Liu Moe and Xu Wei (Hangzhou, China) .....	299

*Section F. Liquid membrane*

Extraction of zinc in an Oldshue-Rudston column by liquid surfactant membranes by Yu Jianhan, Wang Shizhu, Ma Nianci and Jiang Changyin (Beijing, China) .....	315
An investigation into the breaking-down of water-in-oil type emulsions by means of pulsed voltage by Yan Zhong, Li Siya, Yu Yaochuan and Zheng Xuelun (Changchun, China) .....	323

*Section G. Biotechnical and medical applications of membrane*

Membrane filtration as a tool in biotechnical down-stream processing by O.J. Olsen (Nakskov, Denmark) .....	329
The refinement and concentration of agricultural antibiotic A in aqueous solution using membrane processes by Cai Bang-xiao, Lang Kong-min, Liu Yu-rong and Chen Yi-ming (Hangzhou, China) .	341
Performance and structure of dry polysulfonamide (PSA) ultrafiltration membranes by Sun Xiuzhen, Zhang Meng, Lu Xueren and Gao Congjie (Hangzhou, China) .....	353
Cleaning and regeneration of membranes by Ren Deqian (Hangzhou, China) .....	363
Study of the structure of the polyethylene-styrene copolymer by NMR by Jiang Weida, Li Yebing and Ye Hongwei (Hangzhou, China) .....	373
The influence of different types of metal complex on the transitivity of reverse osmosis membranes by Ling Ai-lian, Gao Yi-yuan and Wang Zhi-zhong (Beijing, China) .....	377
Crosslinked PVA-PS thin film composite membrane for reverse osmosis by She Jian and Shen Xiao Ming (Harbin, China) .....	395
